[] Overlay of Annotated Map of Pecs

25X1

Comments: The following locations were pinpointed [] and some additional information was provided on them. The numbers correspond to those used on the map of the city of Pecs, published by the Pecs Varos Idegenforgalmi Hivatala in 1957. [] the map covered the city of Pecs very well. []

25X1

25X1

Note: Pecs contained about 120 thousand inhabitants in 1956 and was primarily a mining city.

1. County Council building is an old five- or six-story structure.
2. City Hall is a four- or five-story building.
3. Council Building of the First District. This is a new two- or three-story building.
6. Jaras Council building is a four- or five-story structure. An extension was built to it in 1954 or 1955. The entire building is quite large and also contains the prison.
7. Main Post Office. This is an old three- or four-story building.
9. State Railroad Directorate is an old three- or four-story building which is quite large.
13. Bus Depot. This depot is for intercity busses, not for local urban lines.
26. Dzsami Mosque. This is used as a Catholic church.
39. Central Building of the University of Pecs. This structure is four or five stories high.
55. City Hospital. This is an old three-story building which is quite large.
70. Udulo Resort is a beautiful hotel which was constructed about 20 years ago [1939].
71. Sunshine Hotel. This is also a fairly new resort.

The following locations were not listed on the above-mentioned map but have been annotated on the [] overlay of the city of Pecs.

25X1

106. Szoponya Machine Factory. This was a fairly large new plant. The old plant was burnt out entirely about 1947 or 1948. About one thousand workers were employed here in 1956. During World War II, it produced grenades and artillery shells.

107. Leather Factory.  This was a very large place. 

25X1

108. Intercity Bus Garage.

109. Zsolnay Porcelain Factory. This place produced insulators for military purposes.

110. Steel Mill. It was subordinate to the Szoponya Machine Factory. It contained a foundry and cutting and shaping facilities. About one to two hundred men were employed here.

111. Main Mining Repair Shop. Attached to it were a coal cleaning plant and a power plant. All three locations together employed about three thousand workers.

112. Pecs Military Induction Center.
